SHARPEN YOUR LEADERSHIP EDGE

THE VHL COACHING DIFFERENCE

There's no such thing as a self-made success: it's always built with the investment and support of others.

We give you the support you need to level up yourself, your team, and your organization. **HERE'S HOW WE'LL DO THAT.**

GENUINE UNDERSTANDING. CANDID INSIGHTS.

We're the unbiased, in-your-corner resource that helps you drive results more effectively than ever before. We'll challenge your thinking when necessary, shed light on potential blind spots, uncover hidden-in-plain-sight opportunities, and have honest conversations that lead to real results.

EXECUTIVE VISION. FRONT-LINE PERSPECTIVE.

Meeting your strategic goals is critical, and how you get there must be clear. We help you refine your leadership through the eyes of your employees, creating the kind of impact that fuels long-term success.

PROVEN PRINCIPLES. REAL-WORLD EXPERTISE.

Some problems come with the times. Others come with the territory. We're ready for both. For decades, we've helped leaders from the front lines to the boardroom navigate challenges, seize opportunities, and drive impact through it all. With proven principles and practical strategies, we help you lead with more clarity, build teams that perform, and drive results that last.

BE THE LEADER YOUR PEOPLE NEED

VAN HOOSER LEADERSHIP EXECUTIVE COACHING SERVICES

LEADERSHIP IS ABOUT
MORE THAN WHAT YOU
KNOW OR DO YOURSELF.

IT'S ABOUT THE RESULTS
YOU DRIVE WITH AND
THROUGH YOUR TEAM.

IT'S ABOUT THE IMPACT
YOU HAVE ON EVERYONE
AROUND YOU.

**LEAD IN A WAY THAT MAKES PEOPLE WANT TO KEEP
FOLLOWING YOU AND KEEP GIVING THEIR BEST.**

COACHING FRAMEWORKS FOR EXCELLENCE

Every leader has unique goals and challenges. That's why we offer three targeted ways to work together — each focused on **improving performance, execution, and relationships across your organization**.with less friction, and more alignment!

OPTION 1: COACHING TO COMPETENCIES

STRENGTHEN SKILLS. SHARPEN EXECUTION.

This approach blends leadership development with tactical coaching.

We focus on the core skills that drive results — communication, accountability, influence, and execution — and turn them into consistent habits that stick.

You'll gain clarity, learn practical tools, apply them in real situations, and get direct feedback that helps you lead stronger in real time.

It's not training. It's transformation...in how you think, act, lead, and succeed!

OPTION 2: TRUSTED ADVISOR COACHING

A PARTNER FOR HIGH-STAKES LEADERSHIP

Leadership can be isolating. The higher you rise, the fewer people you can truly talk to.

This partnership gives you a trusted sounding board — someone who listens deeply, helps you think strategically, and navigates challenges alongside you.

Whether you're aligning your team, handling a tough conversation, or making a major decision, I help you lead with clarity and conviction.

It's not advice. It's a partnership that builds confidence, precision, and results!

OPTION 3: GOAL-SPECIFIC COACHING

RESULTS YOU CAN MEASURE

This is a six-month engagement built around outcomes that matter most to you in this season.

You set the goals. Together, we build the roadmap, execute the plan, and track measurable progress. Every conversation moves you closer to results that drive performance, progress, and impact.

If your next goal is worth \$500,000 — or \$500 million — get there faster, with less friction, and more alignment!
